Delete Virtual Server Template

Operations Guide

Version	Remarks	Date
1.0	**Provisioning Template Operation Guide for Delete Virtual Server**	26/07/2016

1. Delete VIP Template

1. Login to AppViewX.

2. On the left navigation menu, select **Provisioning**; and click **Request**

3. On the upper right portion of the screen, click the [+] **Create** button.

4. Select the provisioning template name from the list – '**Generic Delete VIP**'

   Note: *If no template is available, this indicates that the user role does not have permission to the requesting template.*

5. Enter the provisioning request description – '*Delete Virtual Server on F5/Citrix device*'.

6. Add a default Request scenario name relevant to the template. ***E.g***.: VIP deletion on F5/Citrix ADC.

7. Select the ADC vendor from the available list of vendors in the **Vendor** field. ***E.g***.: F5, Citrix,...

8. Click on Retrieve button to fetch the available list of data centres in the inventory for the selected vendor. The appropriate Data Center is selected from the Select the Data Centre field.

9. In the Select the Device field, list of devices are populated based on the Data Center and Vendor selected. Please select the device from which the VIP is to be deleted.

10. Please select an available VIP from the Virtual Server dropdown for deletion.

11. Check the Status of the selected Virtual Server.

12. Virtual Server can be added and by clicking on the [+] for deleting from the device.

13. Click [Add] Button; ensure that the Scenario is displayed on the right hand pane.

14. Click on Submit to generate work order(s) for the provisioning request.
